any time with Virtual Visits.**

You can connect with a doctor
by phone or video — 24/7 —
without leaving home.

Available
24/7

Virtual Visits are not an insurance product, health care provider or a health plan. Unless otherwise required, benefits are available only when services are delivered through a Designated Virtual Network Provider. Virtual Visits are not intended to address emergency or life-threatening medical conditions and should not be used in those circumstances. Services may not be available at all times or in all locations. Certain prescriptions may not be available, and other restrictions may apply. Data rates may apply. The Designated Virtual Visit Provider's reduced rate for a Virtual Visit is subject to change at any time.

*Virtual Visits cost \$50 or less. However, until at least June 18, 2020, costs for Virtual Visits have been waived.

**So many common conditions can be treated.
It's worth giving Virtual Visits a try.**

You've surely heard about COVID-19, but you may be wondering how to tell if you're experiencing symptoms and what to do.

What are COVID-19 symptoms?

Fever, cough and shortness of breath are common. Occasionally symptoms can be more severe. If you develop these or any flu-like symptoms, we encourage you to get care right away.

Try a Virtual Visit if it's not an emergency.

Virtual Visits are FREE* until at least June 18, 2020, and you don't need to leave your home. Talk to a doctor online who can provide advice and guidance about COVID-19. Please note that Virtual Visits currently can't test for or treat COVID-19.**

** If you meet the CDC guidelines for testing, and it's requested by your doctor, all costs for COVID-19 testing are waived.
